

Stellar Cranes Man+ Material Hoist YSC450- 2T

Features

- Modular design, allowing for different combinations according to equipment
- High quality steel allowing for superior strength whilst still maintaining a lighter weight
- Main components are galvanized to guarantee longer life
- With frequency control, starting and stopping is very smooth, low starting current, min wear
- Uses high efficiency helical gear box, lower power consumption and operational cost
- The mast is 450x450x1508mm with centrally located rack (5mm modulus)
- Cage size (LxWxH): 3.3 x1.5 x 2.5

DATA SHEET- SUMMARY

Mast Height	50m
Lifting Speed	0-54 m/min
Max Payload Capacity	2000kg
Erection Load Capacity	1000kg
Motor Power	(1x2x20kw)
Gear Box	I = 17.12
Mast Section Length	1508mm
Cage Size	3.3x1.4x2.2m
